WORK EXPERIENCE

Safe Software — UX Team Lead
May 2021 - Nov 2022

Support and mentor designers, and tackle cross-platform design projects across the FME Platform. Work closely with various product and engineering leads to determine priorities, scope projects and advocate for design intervention. Interview and onboard new talent for the team.

Safe Software — UX/UI Designer
Jan 2020 - May 2021

Design new pages and update existing ones for our digital domains using analytics to rationalize decisions. Redesigned the FME Community, helped redefine the brand colour palette, and advocated and created the first design system at the organization.

SAP — Product Designer
May 2019 - Dec 2019

Worked with a team of designers in the admin area of SAP Analytics Cloud, collaborting closely with engineering and product to design net-new features. Working with a senior designer, helped scope-out, research, and design the homepage for the new product, Data Warehouse.

City of Surrey — UX Designer
Sep 2017 - Apr 2019

As a UX Designer in a small team, worked closely with developers, business analysts, and varying municipal stakeholders to create digital solutions to City services. Including Single Family Building Permit and Single Sign-on.
